## CAPTAIN DE LAMAR SUED FOR BIG SUM

Vendors of His Nevada Mines Ask For \$3,422,636.

BUY AN ARIZONA GOLD MINE

TWO BIG STRIKES IN THE BRIS-

SAN FRANCISCO, March 15.—Captain Joseph Raphael De Lamar, the millionaire mine-owner, was sued in the superior court of this city for \$3,422,638, and whatever additional sum an accounting may show to be due to the plaintiff, the Utah-Nevada company. The suit is based on an alleged agreement which De Lamar made with Isaac E. Blake on April 10, 1894, in relation to the purchase of the Monitor and Jim Crow mines at the place which is now known as De Lamar, in Lincoln county, Nevada.

Blake says that he had a contract for the purchase of these mines and that De Lamar poined with him in it, agreeing to give him 49 per cent of whatever profits might be made through the purchase and 40 per cent of the stock of the county when a higher price shall, and been learned of the county who may the company's railroad and smelter are both in readiness for business, he says the word to cut loose in the count of the stock of the way that he does not mean when a higher price shall, ave been early all the sound and late on the footwall through the fissure on the 300 level, which was run to intercept a chute of other way from 100 to 1,500 ounces in the carrier of 18,000 ounces silver and \$22 in gold. An average of the way from 100 to 1,500 ounces in the carrier of 18,000 ounces in the carrier of 18,000 ounces silver and \$22 in gold. An average of the way from 100 to 1,500 ounces in the carrier of 18,000 ounces silver and \$22 in gold. An average of the carrier of 18,000 ounces silver and \$22 in gold. The company has a good boarding slover and \$22 in gold. An average of the carrier of 18,000 ounces in the carrier of 18,000 ounces silver and \$22 in gold. An average of the carrier of 18,000 ounces silver and \$22 in gold. An average of the carrier of 28,000 ounces silver and \$22 in gold. An average of the carrier of 2

Blake says that he had a contract for the purchase of these mines and that De Lamar joined with him it, agreeing to give him 49 per cent of whatever profits might be made through the purchase and 49 per cent of the stock of any company which might be formed to work them. It is alleged that De Lamar developed the mines and afterward sold them at a figure which not only repaid him for all of his outlay, but added \$7,000,00 to his wealth.

For Blake's percentage of the \$7,000,000 the plaintiff sies, his rights having been assigned to the Utah-Nevada company, and an accounting to show how much De Lamar took from the mines before selling them is also asked.

The above dispatch was shown to H.

"Cohen, Captain De Lamar's business representative, and while he was disincined to say much about it, he declared it would amount to nothing. The allegation that the mines had been sold, he said, had no foundat on in fact, and there was no justice h, the claim of the Utah-Nevada company.

When the property wa, acquired in 1894, it was after a bond upon it, held by Sam Godbe, had lapsed, and notwithstanding that fact, the captain saw to it that Mr. Godbe should receive his commission.

commission.

The agreement with the vendors was that they should receive a certain commission and 7 per cent of the stock to be issued by the company formed to operate the property. These conditions were compiled with by Captain De Lamar, and when the vendors sought to sell their holdings in the company, he purchased them.

purchased them.

About \$500,000 was expended on the property before it returned a dollar to the captain, and now, after eight years, without ever having claimed that there was anything coming, Blake, the president of the Utah-Nevada company,

on the coast himself, he does not know how soon he will join him.

East Vein Opening Up Fine.

East Veia Opening Up Fine.

John A. Hunt, president of the May Day company, reports the mine to be opened up in a most promising manner, notwithstanding all the disparaging reports that have come from it of late. The new east vein is proving up in great shape and where there was less than seven feet of good ore one week ago, there is now exposed nearly twice that much. It was opened about eighty feet east of the shaft on the 200 level, and drifting in and sinking are now both in progress and good shipping ore is being taken out.

The main shaft from the tunnel level is now seventy feet below the 200-foot mark, and the donkey hoist was placed in commission upon it on Thursday morning. As soon as the 300-foot mark is reached drifting will begin east and west, and as the shaft has been put down about midway between the east and vest veins, it will not be long till toth are opened up at that depth, which is nearly 900 feet beneath the surface.

In the meantime the new dust col-

In the meantime the new dust collector is being installed at the mill and on the arrival of the new sizing machines, long since due, a few days shutdown will occur to take out the old and install the new ones. There is said to be over 400,006 tons of nice milling ore now in sight in the mine.

## THOSE UNCLE SAM STRIKES.

C. E. Allen Says Neither Has Been
Proved Up Yet.

Clarence E. Ahen, who serves the Uncle Sam company as a director and consulting engineer, came in from Tintie yesterday morning. He says the strike made in Humbug territory last week gives promise of developing into something really good, though little headway has been made in exploring it during the past few days owing to a cave that occurred, and which the men have since been catching up. There is lots of good ore overhead, he says, and presumably lots of it in front, but the men, have not yet had a chance to wade into it, for the reason stated.

The strike reported in the Uncle Sam proper is nothing sensational, but it is helding opt and may prove of importance. It is too early yet, Mr. Allen says, to predict what either will amount to, and he dismissed the subject by saying.

"Newspaper strikes don't count for much, anyhow. Wait awhile and let imported."

amount to, and he distinsect the specific the saying.

"Newspaper strikes don't count for much, anyhow. Wait awhile and let the ground talk for itself."

time 1 lost the neavy, dead recting in my, head, nausea had ceased and the action of my general system had greatly improved.

"I have stuck fast to Grape-Nuts.

Denver to confer with his chief associates in the official household of the Bristol Copper company. Mr. Freudenthal says the report that the company had suspended operations was a mistake, though it had been decided not to begin the production and reduction of the ores until the copper market becomes settled.

Two important strikes have just occurred in the property, and while one of them had only just been made when he left the mine, it occurred just where it was expected, and its character was a foregone conclusion.

not mean when a higher price shall, have been established for the red metal, but when it is known what may be de-pended upon as a steady, every-day

figure.

Mining business is just now very quiet in the Bristol district, but the mines are there. Mr. Freudenthal says, and one of these days it will come to the front with a bound.

#### COMPANY BOARDING HOUSE.

Miners' Union of Eureka Has Taken Up Case Against Mammoth Co.

Mammoth, March 15.—Deputy County Attorney F. H. Holzheimer, who, as the member from Juab county of the last legislature, introduced a bill against "company" boarding houses and stores, was over from Eureka during the week to ascertain the status of affairs at the Mammoth mine, where it is alleged Mammoth mine, where, it is alleged, a new regime has been instituted, whereby single men are paid a stipu-lated sum and board for their services,

lated sum and board for their services, while married men are required to purchase at least \$45 worth of commodities each month at the company store. The law, which was approved this day a year ago, reads as follows:

"Every person, body-corporate, agent, manager, or employer, doing business in the state of Utah, who, by coercion, intimidation, threats or undue influence, compels his employes to board at a particular boarding house or to trade with or at a particular store, shall be deemed guilty of a misdemeanor.

unit the continued weak and irregular, and, not until the past two days has a ray of

on the coast himself, he does not know how soon he will join him.

AT THE MAY DAY.

Sinking For 300 Level Below Tunnel

-- East Veia Opening Up Fine.

SWANSEA COMPRESSOR BREAKS. Pumps Operated by Steam Till Repairs Are Made-The Mine.

(Special to The Herald.) Eurcka, March 15.—The compressor at the Swansea at Silver City was damaged early in the week by the breaking of a bolt and will be out of commission until the broken parts can be procured. The pumps are being operated by steam while the compressor is laid un.

Some high-grade ore has been taken out while sinking the main shaft, which has reached the 1,050-foot level, from where a drift will be run to the ore body, which was opened up for 20 feet by a winze.

it was expected, and its character was a foregone conclusion.

The first one was made in the fissure about eighty feet north of the shaft on the 400 level, and exposes a full breast of ore running from 25 to 35 per cent copper and thirty ounces silver per ton. The second and latest strike was made in the south drift through the fissure on the 300 level which was run to intercept a chute of constant which 3 fortune was mined the entire vein gave returns of 8.2

ing of Minnie Healy Case.

Butte, Mont., March 15.—Judge Harney, in a decision handed down this morning, has refused to grant a new trial in the celebrated Minnie Healy mining case. He also ordered stricken from the court files the sensational affidavits which, alleged the court, had been unduly influenced in deciding that the Minnie Healy property belonged to F. Augustus Heinze. Mrs. Ada Bracket, it was alleged, as the agent of Heinze. it was alleged, as the agent of Heinze, prejudiced the judge to have the decision give nto Heinze.

The affidavits at the time they were

given to the public created a great scandal, many charges of misconduct being made against Judge Harney.

Ore and Bullion.

Ore and bullion settlements in this city during the past week amounted to \$238,300, yesterday's proportion of the total being \$32,700, as follows:

T. R. Jones & Co., ores, \$13,700; bullion, \$7,000.

McCornick & Co., ores, \$9,600; gold cyanides, \$2,400.

The Reason Why Inhalers and Local Applications Are Useless.

It is true the most annoying symptoms, like stoppage of the nose and throat trouble, are purely local, but they are simply symptoms and the real seat of disease is far removed.

Catarrh is a constitutional disease, a blood disorder, complicated usually with disease of the liver and to suppose that local applications of sprays, powders, inhalers, could ever reach the real cause of the trouble is ridiculous.

The sensible and successful treatment is to remove the catarrhal poison from the system by regulating the liver and purifying the blood, and this can only be done by an internal remedy, which should consist of antisepties and remedies to act vigorously on the blood and liver.

The best preparation of this kind which

should consist of antiseptics and remedies to act vigorously on the blood and liver.

The best preparation of this kind which fills all the requirements of a safe constitutional treatment is Stuart's Catarrh Tablets, composed of Blood Root. Red Gum and similar wholesome antiseptics, which are absolutely safe to take into the stomach and winch act upon the liver, stomach and mucous membrane.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges to be slowly dissolved in the mouth, thus reaching the mucous membrane and wind-pipe and finally reaching the stomach.

Dr. Edmondson, in speaking of the new treatment for catarrh, says: "I have accomplished the most satisfactory results in all forms of catarrh of the head, threat, bronchial tubes, as well as catarrh of the stomach and liver by using nothing else bur Stuart's Catarrh Tablets. I long since threw aside sprays and inhalers as being inconvenient and at the best mere temporary makeshifts.

"Stuart's Catarrh Tablets act immediately upon the liver and blood and clear the whole system of catarrhal poison. They are pleasant and very convenient to use, and they are not only the latest, but I believe them to be the best and certainly the safest treatment for any form of catarrh."

All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package.
